SmartAir 3.0,

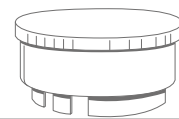

A NEXT GENERATION EVEN MORE EFFICIENT

Created and sold with success since 2005, SmartAir has proved its worth. So, even if there were no need to change it, we decided to improve this best selling air freshener and to give it a more contemporary design. SmartAir 3.0 was born, more elegant and more efficient than ever. Undoubtedly, the oldest technology and best programmable gel air freshener on the market.

DETAILS OF A HIGHLY RELIABLE TECHNOLOGY

- › 1 unit = up to 50 m³
- › The fragrance is **diffused** in the air **thanks to a fan**
- › **Improved by our direct service company** experience
- › **Personalized programming** = works only when you need it to
- › **+** **Efficiency**: thanks to the innovative *Slow Fragrance Release Technology* and to its ingenious new design
- › **+** Easy: use / program / service
- › **(NO)** propellant gas
- › **ClipNgo** = only the used or defective parts can be changed
- › **Low** battery consumption
- › Built from more than 30%* **recycled materials**

- › 1 refill = up to 2 months
- › **Natural extract** based refined fragrances
- › **VOC compliant**
- › **Light packaging** = easy to dispose of takes up very little space in the waste bin

Resistant and durable ABS plastic construction

Available in white/silver metallic band or black/silver metallic band

H: 190 mm | W: 85 mm | D: 85 mm

Personalized programming: number of days / number of hours per day
